

NEVADA SSBCI

COLLATERAL SUPPORT PROGRAM

The Collateral Support Program is part of Nevada's State Small Business Credit Initiative (SSBCI) administered by the Governor's Office of Economic Development (GOED) and operated by non-profit Nevada Battle Born Growth Escalator, Inc. It is designed to enable access to financing for small businesses and non-profits that might otherwise be unavailable due to a collateral shortfall. The Program pledges cash collateral accounts to Nevada's banks and credit unions to enhance collateral coverage of individual loans.

HOW IT WORKS

The Collateral Support Program provides up to 80% of a collateral shortfall and a maximum of \$5 million. Total loan size must not exceed \$20 million.

HOW TO APPLY

The Program partners with your financial institution. Nevada Small Businesses should ask their Bank or Credit Union to [contact Carla Jewell at cjewell@nvsmallbiz.org](mailto:cjewell@nvsmallbiz.org).

SBA 504

BRIDGE LOAN

During the interim phase of a project, between closing and the SBA takeout of the second mortgage, the commercial lending partner (financial institution) is at risk. The Collateral Support Program addresses this exposure and timing difference by providing commercial lending partners with bridge loan funds to cover the second mortgage until the permanent SBA takeout occurs.

Interim financing of authorized SBA 504 projects including owner-occupied commercial real estate (turn-key acquisitions, renovation or build-out projects and ground-up construction) and/or fixed heavy-duty machinery and equipment purchases.

PROGRAM GUIDELINES

- The entire proceeds of the credit facility must be used for businesses and non-profits within the state of Nevada.
- The program can support up to 49.9 percent of a new extension of commercial credit.
- The maximum participation is capped at \$5,000,000 and may not be used to support individual extensions of commercial credit of greater than \$20,000,000.
- The program will enhance the collateral position of borrowers by depositing cash into accounts at participating lending institutions, which will then be pledged as collateral on behalf of the borrower on a transaction-by-transaction basis.
- Personal guarantees are required from any individual holding a 20% or more ownership interest of the borrower. In the event that no one individual holds at least a 20% ownership in the entity acting as the borrower, the program will require a personal guarantee from at least one owner. The guaranty is normally subordinate to the existing exposure for the project of the participating lender at the time of closing.
- The collateral balance is reduced proportionately with the principal reduction of the extension of commercial credit to maintain support at the same percentage level set at closing.
- The program validates and evaluates the economic development benefits to the state as part of the project approval process.
- The program charges a maximum fee of 0.5% of the SSBCI collateral support advance at closing. Additionally, the program charges an annual fee of 0.5%.
- The program shall collect, at its determination, from the lead bank, its credit analysis, borrower financial statements, risk rating justification, cash flows, and other documents which the program deems necessary.
- The lender must sign the State Small Business Credit Initiative Cash Collateral Deposit Agreement, which requires the lender and the borrower to sign their respective assurances under the SSBCI program.
- A focus of the Program is to reach all business owners and non-profit organizations across Nevada regardless of race, location, background, or gender identity. The Program encourages eligible small businesses that are at least 51 percent owned by individuals to apply, who certify that they belong to a group that has faced historical and/or systematic barriers to accessing credit, including but not limited to people of color, women, veterans, and rural residents.
- The participating institution will be required to make performance data available to the Program on a quarterly and annual basis. This data will be used for federal reporting. Reports will also be submitted to GOED and the Nevada Legislature.
- The Program is prohibited from lending in the gambling, alcohol, cannabis or firearm sectors or real estate, investment firms or lenders.
